

# Ontario Cancer Biomarker Network Overview

Dr Kenneth R Evans  
President and CEO

# OCBN

- Not-for-profit organization focused on the discovery and development of early diagnostic tools for cancer
- Infrastructure to organize and support multidisciplinary biomarker research programs
  - Leverage province's existing expertise and state-of-the-art technological/analytical platforms
  - Apply diverse research approaches in parallel to optimize target selection
  - Ensure regulatory compliance across processes and facilities to facilitate rapid, wide-scale implementation
